**theScreener Announces Collaboration with MSCI for Enhanced ESG Data Solutions**

**Zug, Switzerland:** *theScreener*, a leading provider of high-quality financial analytics, is pleased to announce a collaboration with MSCI Inc. (NYSE: MSCI), a leading provider of mission-critical decision support tools and services for the global investment community. This collaboration aims to enhance *theScreener's* Environmental, Social, and Governance (ESG) data offerings by integrating MSCI's comprehensive ESG data and insights.

The collaboration will enable *theScreener* to leverage MSCI's robust ESG datasets, ensuring that investors and financial professionals have access to the highest quality ESG information directly in *theScreener's* products.

"We are thrilled to join forces with MSCI to enrich our ESG data solutions," said Dr. Dave Koller, Head of ESG Data at *theScreener*. "This collaboration underscores our commitment to providing our clients with excellent and understandable data to support responsible and sustainable investing."

"We are pleased to welcome *theScreener* to MSCI's Sustainability and Climate data delivery ecosystem. *theScreener's* platform and tools will allow clients to integrate Sustainability and Climate data into their investment process alongside other fundamental data and deliver additional portfolio insights with just one click." Said Eva Meyer Head of ESG and Climate Product EMEA.

This collaboration highlights *theScreener's* ongoing dedication to delivering superior analytical tools that empower investors to make well-informed decisions. By incorporating MSCI's ESG data, *theScreener* continues to innovate its platform, ensuring that clients can seamlessly access critical information for their diverse needs in the evolving financial landscape. Both companies are committed to maintaining the highest standards of data integrity and reliability, further solidifying their positions as industry leaders in financial analytics and decision support.

**About theScreener:** *theScreener* is a leading provider of financial analytics and data solutions, serving investment professionals worldwide. With a focus on delivering high-quality, independent analysis, *theScreener* offers a comprehensive suite of tools designed to support investment decision-making across various asset classes.
